

## WILD BOAR FARMS TOMATOES

PHOTO	NAME	WILD BOAR FARMS VARIETY	DET./ INDETERM INATE	SIZE	SEASON	DESCRIPTION
	AAA Sweet Solano	X	INDET	2-4 oz.	Mid Early	Mutant discovered in Yellow Boar (Yellow Stripe). Very attractive yellow with green stripes turning deep orange color with gold stripes. Some hang time ability. Stays firm, very sweet with a hint of tropical fruit. Produced huge harvest for 2009.
	Barry's Crazy Cherry	X	INDET	Cherry	Early	Huge clusters of sweet yellow cherry tomatoes. Easy to grow, Early Season.
	Beauty King	X	INDET	12-20 oz.	Mid to Late Season	By far the best looking and tasting red yellow bi-color I have tried. Mid to late, 75-90 days. Indet. regular leaf. fruit. Good to very good production. Large stunning red yellow bi-color, yellow with flashy red stripes(not blotches). Interior is yellow with bright red streaks, very meaty. Very good sweet tomato flavor. Cross between a Big Rainbow and Green Zebra.
	Berkeley Tie-Dye	X	INDET	8-16 oz.	Mid- Late	Warning, high acid content may cause flashbacks. This tomato blows me and alot of my customers away. A favorite to many of my chefs. Mid-late to late, 75-90 days. indet. regular leaf plants. Green fruit with yellow and red stripes. Creamy green flesh infused with various shades of red and yellow. Each of these colors has a different flavor resulting in a spicey, sweet, tart tomato with good acid all in one. Originated from one plant 500 F-2 Beauty King.
	Big Beef		INDET	8-12 oz.	Mid Early	Meaty, red beefsteak. Classic tomato flavor. Very productive hybrid.

## WILD BOAR FARMS TOMATOES

PHOTO	NAME	WILD BOAR FARMS VARIETY	DET./ INDETERM INATE	SIZE	SEASON	DESCRIPTION
	Black & Brown Boar	X	INDET	3-4"	Early to Mid-Early	One of my first varieties. Discovered in Green Zebra patch years about ten years ago. This looks like a Black Zebra, slightly larger with some lobes. Mid-early to early. 65-75 days. Indet. regular leaf. Pumps out 3-4" fruit like crazy. Aggressive grower and producer. Great flavor, dark earthy tones of rich tomato. Origin-Green Zebra.
	Black Cherry		INDET	Cherry	Early	Sweet, dark purple cherry. Pumps them out. Addictive.
	Blue Beauty	X	INDET	4-8 oz.	Mid	Selection from a cross with Beauty King and a blue tomato. Great production. Medium Large fruit, 4-8 oz. Meaty Pink beefsteak with a lovely dark blue Anthocyanin top. Good hang on the vine ability, sunburn and crack resistant. Very good flavor.
	Blue Boar Berries	X	INDET	Cherry	Mid Early	Stunning cherry with high levels of anthocyanin. Interior ripens to a brick red-brown. Outside can be almost black. Big production and great taste from this amazing variety. Sunburn, crack resistant. Disease tolerance. Hang on the vine and self life enhanced.
	Early Girl		INDET	3-6 oz.	Early	Round, red, sweet very productive hybrid.

PHOTO	NAME	WILD BOAR FARMS VARIETY	DET./ INDETERM INATE	SIZE	SEASON	DESCRIPTION
	Evan's Purple Pear	X	INDET	Large Cherry	Mid	70-80 days. Potato leaf. Good to very good production, great disease tolerance typical of potato leaf. Cluster, purple pear shaped fruit, with excellent sweet rich flavor. Ripe fruit has some hangtime. Originally from a Prudence Purple.
	Indigo Apple	X	INDET	2-4 oz.	Mid Early	Thank you PKS Heirlooms for the original cross! The unripe green fruit will show lots of purple, which is brought on by the sunlight, will eventually turn almost a true black. This is caused by the high anthocyanin level (antioxidant found in blueberries). This tomato has a good sweet tomato flavor.
	Large Barred Boar	X	INDET	8-12 oz.	Early to Mid-early	Like most dark tomatoes, this is one of my first ripe tomatoes each season. 65-75 days. Indet. regular leaf, grows fairly stocky and not as tall as most indet. 8-12 oz. flattened med. beefsteak fruit. Good choice for marginal tomato climates. Pink brown with metallic green stripes. Very meaty pink flesh that is very flavorful. Originated from F-2 Black and Brown Boar. The only large tomato in a row of 200. First large striped tomato I had ever seen at the time.
	Michael Pollan	X	INDET	2-4 oz.	Mid	Odd shaped mutant from green zebra. Named after the awesome writer, journalist and teacher. (Please read one of his books) Taste is very different from the Green Zebra. Much less tartness, more mild with good sweetness. Very positive response at the Farmers Market. As I ran out later in the season, customers kept asking about them.
	Pink Berkeley Tie-Dye	X	INDET	8-12 oz.	Early to Mid-early	Beautiful, early, and very sweet rich flavor. 10 out of 10 people liked it better then Cherokee Purple in a farmers market taste off. Early to mid-early, 65-75 days. Compact indet. regular leaf. Port wine colored beefsteak with metallic green stripes. Excellent sweet, rich dark tomato flavor. Fabulous. Marginal tomato climate recommended.
	Porkchop	X	INDET	8-12 oz.	Mid	Most "yellow" tomatoes are actually orange. This is a true yellow, starts off yellow with green stripes which ripen to gold. Mid season, 75-85 days. indet. regular leaf. medium size slightly flattened beefsteaks. Great sweet tomato flavor with hints of citrus. Best yellow I have ever had.

	Solar Flare	X	INDET	6-10 oz.	Mid	Beefsteak, Red with Gold Stripes, Very Meaty with Luscious Sweet Red Tomato Flavor. F-7 Cross from Beauty King, selected for flavor, "WOW" Factor, production, increased earliness, scab resistance. Mid / Early Season, full body red, slightly sweet. This variety is one of my work horses.
	SS 100		INDET	Cherry	Early	Red, huge producer. Addictively sweet. Hybrid cherry.
	Sungold		INDET	Cherry	Early	The sweetest, fruitiest of all tomatoes. Hybrid cherry.
